hfredrickson@mcf2.com

This class will fully certify you for the National Wildfire Coordinating Group (NWCG), Red Card issued by DNR, Federal agencies, and wildland contractors for basic wildland firefighter (FFT2). This is the basic requirement for wildland strike team and task force call-ups, urban interface mobilization, and wildland contractors. It is the basic training for employment with the US Forest Service, the BLM, and DNR. You must be 18 or have your 18th birthday before you take the class.

The class includes a self-paced Incident Command System workbook, extensive classroom training, fire shelter deployment training, map and compass work and plenty of field experience with hand tools. We will have a field exercise day. The Work Capacity Test (pack test) will be conducted and certified by your home unit.

Personnel will need to have fire-resistive clothing (cotton or Nomex, but no bunker gear) and lace-up boots for the fieldwork. Bring a magnetic compass for map work. You may want a water bottle/ canteen and/or raingear for the fieldwork. Hand tools will be provided. You will get dirty.
